

Opportunity: Senior Structural Engineer | 10+ Years

Our Collective Vision

To inspire greatness to our clients we need to be great ourselves. Our collective inspiration comes from a drive to be autonomous, achieve mastery, and have a purpose. Our approach fosters deep understanding of education and learning, allowing you the freedom to create bold designs unique to our client's vision. Top-notch talent like you has a penchant to be a leader. Your keen sense to visualize what makes great design coupled with our integrated discipline "Learning Studios" will empower you and your team to create smart, thoughtful and inspiring "learning environments". Our commitment to greatness starts with you. Grow the Individual, Grow the Team, Grow the Firm!

Why You're Here

1. A 4 to 6 year accredited professional degree in Civil or Architectural Engineering.
2. A minimum of 10 years of professional experience; experience in all phases of projects.
3. Licensed professional engineer.
4. Fluency in Revit and Microsoft Office is preferred.
5. Active participation in community and membership in industry association (SEAKM, ASCE, etc.).
6. You have documentation that allows you to work in the United States of America.

Who You Are

1. Creative mind, positive attitude, accountable, thorough, results oriented, excellent communicator and relational skills.
2. Exceptional drive, commitment, the ability to manage time well and multi-task while problem solving independently.
3. Sets an example of leadership and teaming through a spirit of cooperation.
4. Desire to build strong client and team relationships.
5. Create thoughtful, smart designs through innovative idea generation, coupled with a strategic business mindset.

What You Do

1. A Leader – on medium and major scope projects or multi-project clients
 - a. Project team(s) within the Learning Studio.
 - b. Primary contact between project team and client leader/ senior project Architect.
 - c. Secondary contact for the schedule, budget, and scope of work to completion and to the Director of Structural Engineering.
 - d. Works closely with Director of Structural Engineering and client leaders to promote an interdisciplinary design approach.
 - e. Seeks to build an internal leadership presence.
 - f. Primary contact to, and leader of, project consultants and business partners.
 - g. Primary contact to contractors during project construction administration.
 - h. Promotes/Leads involvement in Hollis and Miller initiatives.
2. A Business Developer
 - a. Works to build strong client relationships.
3. A Coach
 - a. Motivates their team to make the right decisions in a proactive manner, make course corrections when necessary and guides the team to success.
 - b. Oversees and mentors less experienced project team members.
4. A Designer, Coordinator, Technical Expert, Construction Administrator
 - a. Coordinates and contributes to project team design, technical and QA/QC efforts.
 - b. Balances and manages multiple team members and multiple project assignments.
 - c. Assists Director of Structural Engineering in managing project specific budgets, schedules, and programs; project communications and documentation; project administrative tasks; project team assignments; and man-hour budgets.
 - d. Coordinates the project design with consultants, business partners and internal project team.
 - e. Responsible for construction administration on medium and major projects, or multi-project clients.

We may alter any or all of the above from time to time to further our desire to make you, our self and our clients great!
